

ScottMadden to Discuss the Role of Utilities in REV at NY Energy REVolution Summit

ATLANTA, GA – (July 22, 2016) – ScottMadden, Inc., one of North America’s leading energy consulting firms, will soon join top experts as a sponsor and presenter at the 2nd Annual Infocast [NY Energy REVolution Summit](#) being held July 26–28 at The Westin NY Times Square in New York, NY. This event provides a unique opportunity to hear how utilities are planning for the future and explore the promise vs. the practical realities of deploying distributed energy resources (DERs).

At this event, [Cristin Lyons](#), partner and grid transformation practice leader at ScottMadden, will lead a panel focused on the role of utilities in Reforming the Energy Vision (REV). The New York utilities recently filed their Distributed System Implementation Plans (DSIPs), with the Supplemental DSIP to be filed in November. This session will review the tools, processes, and protocols they are implementing to dynamically manage DERs and their plans to integrate DERs into distribution system planning on an ongoing basis. Panelists will include: Joe Hally of Central Hudson; Doug McMahon of New York Power Authority (NYPA); Navneet Trivedi of Vrinda Inc.; and Candice Tsay of Con Edison.

“New York is creating a model to encourage DER proliferation, and utilities are being asked to make substantive changes to the way they plan and operate the grid,” said Ms. Lyons.

About ScottMadden’s Grid Transformation Practice

For more than 30 years, ScottMadden has helped our clients transform the way they operate, plan, and maintain the grid and interact with their customers. The Grid Transformation practice focuses on helping clients adapt to the myriad changes driven by the increasing penetration of distributed energy resources, such as distributed generation, storage, demand response, and microgrids. We help our clients choose the path that meets their reliability, customer, and regulatory goals, and then we help them implement it.

About ScottMadden, Inc.

ScottMadden is the management consulting firm that does what it takes to get it done right. Our practice areas include Energy, Clean Tech & Sustainability, Corporate & Shared Services, and Grid Transformation. We deliver a broad array of consulting services ranging from strategic planning through implementation across many industries, business units, and functions.
