

ScottMadden Presented at the NYISO Distributed Energy Resource Workshop

ATLANTA, GA – (September 28, 2016) – ScottMadden recently joined energy executives as a presenter at the NYISO Distributed Energy Resource Workshop. The NYISO recently issued a draft roadmap for the integration of distributed energy resources (DER) into the NYISO market. During this stakeholder workshop held on Thursday, September 22, in Albany, NY, the NYISO gathered stakeholder input on this roadmap.

At the event, [Cristin Lyons](#), partner and grid transformation practice leader at ScottMadden, provided an overview of the integration of DERs into wholesale markets in the United States. This [presentation](#) examined DER integration into wholesale markets and the challenges of integrating behind-the-meter resources.

About ScottMadden's Grid Transformation Practice

For more than 30 years, ScottMadden has helped our clients transform the way they operate, plan, and maintain the grid and interact with their customers. The Grid Transformation practice focuses on helping clients adapt to the myriad changes driven by the increasing penetration of distributed energy resources, such as distributed generation, storage, demand response, and microgrids. We help our clients choose the path that meets their reliability, customer, and regulatory goals, and then we help them implement it. For more information regarding our Grid Transformation practice, please [contact us](#).
