

ScottMadden Named as One of America's Best Management Consulting Firms in the United States for the Second Year

Forbes Media and Statista Recognize America's Top Management Consulting Firms

ATLANTA, GA – (May 2, 2017) – Forbes Media, in partnership with Statista, an online statistics provider, has recognized ScottMadden, Inc., for the second year as one of 234 America's Best Management Consulting Firms in the United States out of more than 50,000 consultancies. This second annual list focuses on management consultancies providing businesses across industry sectors and functional areas with the best guidance on their practice.

These companies are recognized based on rankings compiled from two online surveys: a colleague survey (partners and executives from management consultancies) and a client survey among senior executives who have previously worked with management consultancies.

The first survey included 7,000 consulting-firm partners who were asked to recommend consultancies (excluding their own). A total of 1,207 partners completed the survey in November and December of 2016. The second survey included 1,100 business executives who were asked to recommend consultancies on the list where they had worked with a consultancy. Statista then identified the firms that received a disproportionately high number of client recommendations.

"Another great honor for ScottMadden. To be recognized by both our client community and our competitor community, makes us all the prouder. Our consultants and staff deserve all the credit. They are outstanding," says Brad Kitchens, president and CEO at ScottMadden.
