

ScottMadden Joins The Cleanie Awards Panel to Honor Innovators and Changemakers in Clean, Renewable Energy

ATLANTA, GA – (October 25, 2018) – ScottMadden, Inc., one of North America’s leading management consultant firms specializing in energy, recently joined the panel of judges of [The Cleanie Awards](#), which honors companies and industry leaders paving the way in the clean tech sector. The Cleanie Awards are the first comprehensive awards program to recognize achievements in the clean tech industry, and the winners are honored for their innovation, leadership, and outreach campaigns that promote clean tech and renewable energy (including solar, wind, and water power).

“The Cleanie Awards program recognizes individuals and companies responsible for creating a successful and ever-expanding global clean tech marketplace,” said Elyssa Rae, program director. This inaugural cohort of honorees proudly represents nearly every facet of the renewable industry, and they have used their influence and expertise to bring us closer to a clean energy future here and abroad.”

[Chris Vlahoplus](#), partner and clean tech & sustainability practice leader at ScottMadden, joined The Cleanie Awards as a judge. “The idea of recognizing leaders in the clean tech industry is long overdue,” commented Mr. Vlahoplus. “I am proud to have been a part of the selection process and look forward to seeing our honorees advance the clean tech future.”

About The Cleanie Awards

The Cleanie Awards is the first comprehensive program exclusive to the cleantech industry. It generates much needed visibility for innovators and disruptors in the industry who are creating life (and planet) solutions. The Campaigns recognized by the award program aim to influence public opinion about technologies delivering on the promise of a clean energy future. About ScottMadden’s Clean Tech & Sustainability Practice

Leveraging our energy expertise, the ScottMadden Clean Tech & Sustainability practice helps our clients effectively navigate through the quickly changing energy landscape. We specialize in assisting our clients with sustainable energy strategies and making smart portfolio choices. We work with our clients to understand and effectively utilize cleaner, renewable sources of energy, such as wind, solar, bioenergy, and nuclear. Our experienced team of energy practitioners understands the roles of energy efficiency, demand response, and storage as part of an integrated strategy. We also assist clients with sustainability, bringing an understanding of energy-unique concerns.
